

Amendments to the Claims:

The listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

Claim 1 (Original) A multi-compartment dispenser comprising a deformable outer container body having a plurality of mutually separated compartments for separately storing desired dissimilar materials which may have different viscosities, the compartments being separated by at least one elastic partition, with each compartment being provided with a discharge outlet adapted to provide a discharge aperture of an area proportional to the resistance to flow raised to an exponent whose value is greater than zero, said resistance to flow being of the material to be discharged from the respective compartments for controlled discharge of dissimilar materials from the discharge outlets.

Claim 2 (Original) The multi-compartment dispenser of claim 1 wherein the area of the discharge aperture of each compartment is directly proportional to the ratio in which the material is required to be discharged with respect to the materials contained in the other compartments.

Claim 3 (Currently Amended) The multi-compartment dispenser of claim 1 ~~or claim 2~~ wherein adjacently facing members of the respective compartments are sealed together with the partition, and the outer deformable body portions of the adjacent compartments are sealed together to define the deformable container outer body.

Claim 4 (Currently Amended) The multi-compartment dispenser of ~~any preceding claim~~ claim 1 wherein the area of the at least one partition is equal to or greater than the cross sectional area of the container along the partition.

Claim 5 (Currently Amended) The multi-compartment dispenser of any preceding ~~claim~~claim 1 wherein the at least one partition is corrugated.

Claim 6 (Currently Amended) The multi-compartment dispenser of any preceding ~~claim~~claim 1 wherein there are a plurality of elastic partitions.

Claim 7 (Currently Amended) The multi-compartment dispenser of any preceding ~~claim~~claim 1 wherein the deformable outer container body is not collapsible.

Claim 8 (Currently Amended) The multi-compartment dispenser of any preceding ~~claim~~claim 1 wherein the dispenser is hand-held.

Claim 9 (Currently Amended) The multi-compartment dispenser of any preceding ~~claim~~claim 1 wherein the exponent has a value between 0.1 and 5.
